A startling theory is at present exercising the

well-dressed men up-town who are wearing the new, tailless "Tuxedo" coat. It has been suggested by an

authority that the innovation means nothing less than the final result of a development which has

been going on for some time. Not many years ago, waiters were wont to wear short, tailless jackets.

Since then, it has been remarked, that by some in-

explicable process walters have gradually assumed

the "swallow-tail" dress-coat, and have thereby fre-

quently caused disagrecable mistakes. Waiters were

taken for "gentlemen," and, vice versa, shining social

lights were mistaken for menials. And now-oh, horrors:-it is suggested that the inventor of the

Sir: During the month of October the export car, and your foot doesn't touch the ground in getting off before they have rung the bell to start. Then, of wheat from two customs districts on the Pacific Coast were 3,265,360 bushels, and from all there is always a scowl on their faces, and if you the principal districts on the Atlantic Coast only ask them for any information about the streets 303,300 bushels. Perhaps the influence of they look as if they would like to punctuate their directions with a little profanity. But some of speculation was never more strikingly illustrated. California learned a year ago what it cost to lock them are just as nice as they can be. Over in Sixth-ave, there is one I frequently see who never fails to help you in getting on and off his car, and up wheat, and none of that folly appears there this year. Exports from the Pacific Coast in October of last year, long after the corner had broken, were 668,654 bushels, and this year are and he always tells you when he comes to your nearly five times as much. So it comes to pass street. There is some satisfaction in riding with that in four months of the present crop year the Pacific Coast has marketed 10,497,613 bushels, ten cents and feel comfortable than to ride free with one of those hateful men who never take any and the Atlantic Coast, with a vast quantity more of wheat to sell and with accumulating stocks, notice of you. I think there ought to be a sort of examination for them all to pass before they has marketed only 9,803,466 bushels. A year ago the Pacific Coast marketed 6,000,000 bushels in get positions, where they would have to furnish the same four months, and the Atlantic States satisfactory evidence that they could be polite, ocover 30,000,000 bushels.

Another fact is that exports of corn have increased this year over 70 per cent. In four months 13,146,669 bushels have gone abroad, taking the place in foreign consumption of wheat which American speculators prefer to keep. A corn crop of over 2,000,000,000 bushels has given this country a fair chance to supply foreign consumption quite largely at low figures, if foreign-

ers desire. In four months exports of wheat and flour, from all points net for three months, and from principal all points net for three months, and from principal ports for October, have been 37,829,633 bushels, against 55,211,747 last year. This leaves on hand for export at least 84,700,000 bushels, if consumption for food and seed should be as large as it was last year in spite of a great advance in price. But it would be safe to calculate that home consumption may also be diminished if current prices hold. In the remaining eight months of the last cropyear exports were only 64,300,000 bushels, and the recent movement clearly indicates that no such quantity will be taken at current prices. But something over 20,000,000 bushels would be left on hand at the end of the year, besides all the decrease in foreign demand for eight months, and besides the minimum stock always carried over. To all appearance, the chances of famine this year To all appearance, the chances of famine this year are remote. W. M. G.

CIVILIZING AMERICAN COLLEGES.

CIVILIZING AMERICAN COLLEGES.

From The Sa Louis Globe-Democrat.

The process of civilizing American colleges has gone on gloriously for the last three or four years. Not one case of fatal hazing has been reported this fall. The practice is abolished from nearly all colleges of high rank, and for the most part without the interference of the trustees or faculties. The Yale sophomores recently voted against it, and this will probably abolish it forever from that institution. Came-rushes are sometimes rough, but they are not brutal, tyrannical and contemptible. There could be no worse element of culture for our young men than to suppose it manly, by numbers and force, to browbeat and make sport of a harmless stranger. The contemptible habit, when resistance was effered, led to brutality that would shame savages. Probably not

one of the leading colleges but has on its recleast one hazing that ended fatally—in plainer is a case of murder. SELECTIONS FROM THE MAIL.

DIED FOR THE LOVE OF AN ITALIAN COUNT. Youngstown, Ohio, Nov. 20 (Special).-The suicide of Miss Goudart, the French governess, is still the subject of investigation and additional facts are being obtained. In conversation with Mrs. Bonnell, who employed her, she stated that the only friend she had in New-York was an Italian count who was a member of the Legation, and that he knew family. It was noticed by the family that every day she received a letter from New-York and the contents pleased her until last Friday, when she became melancholy after reading and destroying a note. When asked for the address of the count in New-York. she declined to give it. An hour after her suicide a letter was received. It was broken open by the coroner to-day and found to be written in French. It was dated New-York, November 17, and was evidently written by a man, although there was no signature. On being translated it was found to be full of passionate love, and begged her to return to New-York at once, chiding her because she left suddenly, and stating that he would telegraph funds if she would come. The correspondent implored her to dispel all gloomy thoughts and return where he could protect and defend her. Disappointment in love will be the verdict of the

BISHOP LOUGHLIN'S NEW HOUSE. removal of the household effects of Bishop Loughlin, of the Roman Catholic Diocese of Brooklyn, from his home in Jay-st., opposite the Pro-Cathedral of St. James, to the new Episcopal mansion a Clermont and Greene aves., which was recently fully lescribed in The Tribune, began yesterday. over thirty-five years the Bishop has occupied his modest home, and has seen his diocese grow from one of the smallest to one of the largest in the country. He will hereafter live in what is said to be the It was built at a cost of about \$100,000, and is a noble structure. Its site adjoins that of the Cathedral of the Immaculate Conception, which will soon be pushed forward to completion.

FOR DESTITUTE COLORED CHILDREN. The 8th Regiment Armory, at Broadway and Thirty-sixth-st., presented an attractive appearance last night at the opening of the fair in aid of the St. Benedict's Home for Destitute Colored Children. There are eleven tastefully arranged booths in the drill-room. The articles offered for sale embrace many beautiful pieces of feminine handiwork, a many beautiful pieces of feminine handwork, a billiard-table, a plane and a set of parlor furniture. The fair will continue until December 6, and its purpose is to raise money sufficient to move the home from its present location, No. 120 Macdougal-st, to the suburbs, and to increase its work.

DEDICATING A NEW MASONIC TEMPLE. Waterbury, Conn., Nov. 20 (Special) .- The new fasonic Temple on Bank-st., this city, was dedicated to-day. The features of the exercises were the address on Free Masonry, by the Rev. J. W. Richardson, of Stamford, and the historical address by Nathan Dikeman. The benediction was pronounced by the Rev. Dr. Edmund Rowland, rector of St. John's Episcopal Church.

FIFTY DOLLARS FOR THE CONSCIENCE FUND. Controller Myers yesterday received the following letter with an enclosure of \$50.

Enclosed please find \$50, being taxes on a very small estate. Be so kind as to acknowledge receipt of this in The New-York Daily Tribune. Yours respectfully, Nov. 19, 1888.

To T. W. Myers, Controller of New-York City.

The amount was deposited by the Controller in the City Treasury to the credit of the Conscience Fund.

MRS. GOULD'S CONDITION UNCHANGED. Mrs. Jay Gould yesterday remained free from pair and appeared to be quite comfortable. She made frequent efforts to converse with the members of her family, but was unable to talk intelligibly. Dr. Baidwin, who is attending her, said last night that new terms of the converse of the con new symptoms had developed themselves in her case and that, as she was able to take nourishment, she might emain in her present condition for two or three weeks.

CHEWING GUM FOR A PRIZE.

From The Minneapoils Journal.

Twenty-five gentle maidens, more or less beautiful, sitting upon high platforms and chewing gum to slow noster. That is the novel sight that will be presented at the That is the novel sight that will be presented at the dime museum next week. It will be demonstrated whether it is better to bring the jaws together with a quick, steady movement, making a sound like the click of a telegraph instrument, or to bring them together like two freight trains in collision. A decision can be made between the nervous, spasmodic chew, and the casy, graceful roll like a cow masticating hay. It will be a great week for gum chewers. It is affirmed that one or the contestants can chew in six different languages and smile like a basket of chips at the same time.

HOW NOT TO LIVE ON A THOUSAND DOLLARS A From Donahoe's Magazine.

From Donahoe's Magazine.

His salary was a thousand dollars a year, and he had just proposed to Miss Clara Lighthead and been accepted. And they were both exquisitely happy until she said.

"And you don't know how lovely our home will be, George. It shall be a home, indeed, for you a place of rest and joy and comfort! Fill call the housekeeper up every morning, and—"

"The housekeeper?"

"Yes, yes, dear. Now, don't interrupt, you naughty boy. I'll tell the housekeeper to tell the cook!"

"Yes, yes, dear. Now, don't interrupt, you naughty boy. I'll tell the housekeeper to tell the cook to—"
"The cook!"
"Of course; and I do hope we can get a French cook. I love French cooking. And I'd like the dining-room girl to—"
"The dining-room girl?"
"The dining-room girl. I don't care so much about the chambermaid."
"Why, my darling, I'm afraid—"
"Now, now, you bad old boy; you must let your little girl have her own way when it comes to the house servants. You can engage the butler, if you like, and, of course, you'll get the ceachman; but when it comes to the laundress and seamstress and—why. George, what a dreadfully long face you have! I don't like it!"
It looked longer as he sat in his ten-by-twelve room an hour later, trying to "figure out" how the wages

cook and housekeeper and butler, and all the them, were to be paid on \$19 23 1-2 per week. in't figured it out.

AN ALLEGED CURE BY CHRISTIAN SCIENCE. Mrs. M. E. Martin, of No. 101 South Fourth-st Brooklyn, says that she has been cured of an internal tumor by faith. She says that her physician tole her he would not cut it out for \$10,000, and that it was as large as a cocoanut and as hard as flint.
When she thought that she should die a Christian scientist called to see her and asked her if she knew that God was omnipotent and omnipresent. Of what followed Mrs. Martin says: "About 12:30 the next morning I awakened from a sound sleep and the words of my friend, 'God is omnipotent and omnipresent,' came to my mind. Almost at the same instant I heard a voice saying: 'I do not make you suffer, neither do I make sickness.' Then I knew that I had touched the hem of God's garments, for instantly I felt myself healed. I have never felt in better condition than now."

She has felt no return of the trouble she suffered from, according to her statement. Mrs. Martin's physician says that in treating fibrous tumors by electrolysis, after the treatment stops the decay the tumor sometimes goes on and a complete cure effected. It also happens sometimes that the tumor sperced and after inflammation and discharge in provement takes piace.

THE SACKVILLE CREST INCREASED THE PRICES Washington, Nov. 20 (Special).—The sale of Lord Sackville's effects was continued to-day at the Legation residence but the attendance was not so great as yesterday. The bidding, however, was equally as spirited and everything brought its full value, while in many instances prices far exceeding the real worth of the articles were obtained. Many

the real worth of the articles were obtained. Many of the things sold to-day were worthless for use, such as carriage robes and blankets which were moth-caten and worn, but as they bore the Sackville crest they were knocked down at a high figure.

A considerable quantity of silver and plated ware was first sold, and the hotel men were the best bidders. When the contents of the stables were sold, everything which was marked with a coat of arms or looked peculiarly English brought good figures, sometimes two or three times their real value. A team of dark brown horses which were said to have cost \$800 a short time ago, but which, necessarily, had no distinguishing monogram, brought only \$370. The double harness they wore, covered at every available place with the Sackville crest, brought a good price. After everything in the stable hat been sold, the wines and cigars belonging to Lord Sackville were put up at auction and the bidding on them was brisk and spirited.

MONEY FOR THE HISTORICAL SOCIETY, The New-York Historical Society celebrated its eighty-fourth anniversary last evening, and the formal announce-ment was made that the society was now sure of \$250,000 for its building fand. About three years ago some un-known friend of the society subscribed \$100,000 for this purpose on the condition that \$300,000 more should be ob-tained. The society was unable to secure this amount within the time then specified, and the amount to be secured was reduced to \$1.0,000, all of which was to be paid in by November 30, 1888. This amount has now een subscribed, and the money will be turned over to the ommittee by the time required. Nothing has yet been one in the way of selecting a site or making plans for the new building. The amount already insured is not doesned sufficient to secure a satisfactory building. John Bigelow delivered the anniversary address, his

subject being "Some Recollections of Edouard Labou-lays." The following new members were elected: R. Fulton Cutting, W. Bayard Cutting, Henry Cranaton, Amy E. Vantine, Charlotte V. Bacon, Mary Colden King, Alfred Corning Clark, Serena Rhinelander and Julia Rhine-

RECITATIONS BY MISS A. M. WOODWARD. audience at the home of Mrs. Terhune, better known as Marion Harland," in Brooklyn, last evening. Miss Voodward was educated abroad, having spent fifteen years in the different countries of Europe. She is a young lady of considerable dramatic talent and has an excellent voice, which has been trained under the best masters. The difficult selections, Victor Hugo's "93," "A Charming Conversationalist" and "The Ensign," showed the variety of Miss Woodward's powers. She was assisted by the musical performances of her brother and sister.

COSTLY CANDIDACIES IN MISSOURI. From The Washington Post.

From another source it was learned last night that the Gubernatorial campaign in Missouri had cost Mayor Francis quite \$100,000, and that George Castleman, who ran for Congress in Mr. Glover's old district, was out at least \$30,000. The fact that Morrison Renshaw, who had charge of his campaign, went insane just after the election is attributed to the defeat of Mr. Castleman after his heavy expenditures.

ELECTION RETURNS FROM ISRAEL

From The Letroit Journal. "Mamma, I know where God is," said a thoughtful little niss last evening.
"Of course you do, darling. God is everywhere."
"No He ain't either. He's in Israel; ceneral Alger said so."

"What do you mean, child?" and the mother what do you mean, child' and the mother showed some acerbity as she made the inquiry.

"Well, General Alger said that as sure as God's in Israel General Harrison would be elected; and General Harrison was elec'ed, wasn't he? Papa said he was, anyhow, that night he came home and acted so funny, and you cried."
